OCTO RECEIVES ON-RAMP FOR THE ARMY'S $248M CLOUD COMPUTING ENTERPRISE TRANSFORMATION (ACCENT) BASIC ORDERING AGREEMENT (BOA)

Reston, VA – May 30, 2018 – Octo Consulting Group, Inc. (Octo), a premier next-generation IT Federal services provider, has been awarded a spot on the Army's Cloud Computing Enterprise Transformation (ACCENT) Basic Ordering Agreement (BOA). This award expands Octo's cloud and infrastructure core service offerings deeper into the Department of Defense (DoD).

As a core component of the Army's Data Center Consolidation Plan (ADCCP), ACCENT enables application owners to acquire commercial cloud-based software-as-a-service (SaaS), infrastructure-as-a-service (IaaS), and platform-as-a-service (PaaS) products, and provides transition support for the migration of enterprise applications to modern cloud architectures. ACCENT allows customers to access cloud service providers (CSPs) from proven government contractors

> We are elated to have the ability to support the Army and the DoD speed their cloud adoption and leverage Octo's world class cloud migration and engineering capabilities through the ACCENT BOA.

that can provide the necessary consulting and orchestration services to enable seamless transition. "We are elated to have the ability to support the Army and the DoD speed their cloud adoption and leverage Octo's world class cloud migration and engineering capabilities through the ACCENT BOA," said Mehul Sanghani, Octo's CEO.

"As a firm we are focused on helping the Federal Government modernize its legacy infrastructure and speed its adoption of next generation IT solutions. We see ACCENT as another way for us to continue that mission. Most importantly, we look forward to expanding our support of our warfighters at home and overseas." ACCENT is also available for decentralized use, in coordination with the Army Application Migration Business Office (AAMBO), by Army and Department of Defense customers that are moving their applications and enterprises to the cloud.

ABOUT OCTO CONSULTING GROUP

Octo is an industry-leading, award-winning provider of digital services for the Federal Government. As a next-generation provider of technology and modernization services, Octo specializes in providing Agile software development, user experience design, and cloud engineering services with scalable outcomes. Octo is known for challenging the status quo and continually exploring new ways to deliver value by improving, transforming and optimizing government IT systems. We believe results are a product of analytical and collaborative thinking, and by partnering with our customers, we develop original and strategic solutions to minimize business disruptions while maximizing resources to advance agency missions.

Octo is only one of three government consulting companies in the United States to maintain both a CMMI® Level 4 for Software Development (CMMI-DEV) appraisal and a Scaled Agile Framework (SAFe®) Gold Partnership. Additionally, Octo maintains ISO 9001, ISO 20000, and ISO 27001 certifications. Headquartered in Reston, Virginia, Octo has offices in Alexandria, Virginia and Columbia, Maryland.
