OCTO

Octo Awarded $75M Contract to Provide Full Range of Information Technology & Infrastructure Services to the National Cancer Institute

Octo's Range of IT Capabilities Across Infrastructure, Engineering, Cyber, and Agile Will Be Used to Help Manage IT Across the Entire Institute

RESTON, Va. – October 30, 2018

Octo Consulting Group (Octo), a leading next-generation IT Federal services provider, today announced the company has been selected for a new multiyear contract award, *competed as an unrestricted task-order on CIO-SP3 SB,* by the National Institutes of Health (NIH). Valued at nearly $75 million, the task order scope is to provide information technology (IT) support services to the NIH's National Cancer Institute (NCI)'s Center for Biomedical Informatics and Information Technology (CBIIT).

CBIIT manages the IT infrastructure for the entire Institute and provides scientific computing and informatics services in support of the NCI research mission. Octo will help support CBIIT infrastructure and systems to further cancer treatment mission needs. Octo will also be directly supporting NCI's ServiceNow implementation and how it is used to support the Institute's IT needs.

"We are thrilled to use our expertise in infrastructure, engineering, cyber, and Agile to support the technical and process needs of CBIIT," said Jay Shah, Executive Vice President, Health & Commerce, at Octo. "We look forward to working alongside the NCI in support of its incredibly important mission to understand, diagnose, prevent, and treat cancer."

As one of the company's several recent wins, this contract award further solidifies Octo's footprint in the Federal healthcare sector. With the goal of improving citizens' lives, Octo also works alongside other HHS OpDivs including SAMHSA, FDA, AHRQ, other Institutes at NIH, and now with NCI.

"With our proven track record of success in improving and engineering modernization efforts for other health-focused agencies, I'm looking forward to Octo's partnership with CBIIT," said Mehul Sanghani, Chief Executive Officer of Octo Consulting. "With this contract, Octo can continue our important efforts of working with Federal Health agencies to improve how IT services are used to enable their missions."

About Octo Consulting Group

A premier provider of technology solutions, Octo empowers Federal agencies to modernize faster. Our combination of technical innovation and pragmatic execution unleashes new capabilities, bolsters security, and transforms service delivery. We specialize in scalable Agile software development, user experience design, and cloud engineering solutions to improve, modernize, and optimize government IT systems.

Known for challenging the status quo and continually exploring new ways to deliver value, our superior outcomes are the result of our collaborative analytical approach and partnering with our customers. Headquartered in Reston, Virginia, Octo builds flexible solutions that evolve as missions change, delivering results that last. Learn more at octoconsulting.com.
