

Octo wins \$45M IDIQ with NIH Office of Logistics and Acquisition Operations (OLAo) to Provide Wide Array of Business Enhancement Services

Reston, VA – June 25, 2019

Octo today announced that it has been awarded a spot on the National Institutes of Health (NIH) Office of Logistics and Acquisition Operations (OLAo) Business and Professional Support Services (NIHBPSSII) IDIQ. With a \$45 million ceiling, the NIHBPSSII IDIQ is an unrestricted vehicle that provides a gateway to several business improvement services including financial analysis, acquisition lifecycle support, business process improvement, organizational assessment, communications, systems integration, and Centers of Excellence services, among others.

With this win, Octo continues to expand its presence within NIH and across the federal healthcare market. “We are very excited about winning a spot on the NIHBPSSII IDIQ,” said Jay Shah, Chief Operating Officer. “This IDIQ allows us to link our history with NIH, our next-generation technology solutions capabilities, and our management consulting acumen through a single vehicle.”

“The healthcare market, and NIH specifically, has been one of Octo’s major areas of focus for more than a decade,” said Octo CEO Mehul Sanghani. “This opportunity allows us to continue our lengthy support to NIH using many of our core service offerings, many of which we have used in support of NIH already. Much of that experience comes from supporting NIH and the Department of Health and Human Services. We are elated to have the opportunity to continue to build on our decade of service and support to this department.”

About Octo

A premier provider of technology solutions, Octo empowers federal agencies to modernize faster. Our combination of technical innovation and pragmatic execution unleashes new capabilities, bolsters security, and transforms service delivery. We specialize in scalable Agile software development, user experience design, and cloud engineering solutions to improve, modernize, and optimize government IT systems. Known for challenging the status quo and continually exploring new ways to deliver value, our superior outcomes are the result of our collaborative analytical approach and partnering with our customers. Headquartered in Reston, Virginia, Octo builds flexible solutions that evolve as missions change, delivering results that last. Learn more at octoconsulting.com.
